👤 PROFESSIONAL SUMMARY

I'm Borifan Dabasa ,Full Stack Developer specializing in the MERN Stack (MongoDB, Express.js, React.js, Node.js) with 2+ years of hands-on experience building scalable, high-performance web applications. Skilled in crafting clean, maintainable code with a strong focus on responsive design, intuitive UI/UX, and seamless API integration. Known for delivering user-centered solutions, optimizing performance, and collaborating effectively in agile environments. Currently pursuing a Bachelor's degree in Software Engineering at Haramaya University.

💼 PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Self-Employed

01/2024 – Present

- Specialized in building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Successfully delivered 10+ projects including e-commerce platforms, appointment management systems, and content management solutions
- Focused on writing clean, maintainable code with emphasis on responsive design and API integration
- Collaborated directly with clients to understand requirements, provide technical solutions, and ensure timely project delivery
- Achieved 100% client satisfaction through effective communication and quality deliverables

🔑 INTERESTS

- Open Source Contribution
- UI/UX Design
- Learning New Technologies
- Problem Solving
- Open to Opportunity

KEY ACHIEVEMENTS

Completed 10+ web development projects with 100% client satisfaction

Built and deployed multiple full-stack applications using modern technologies

Contributed to open-source projects on GitHub

Earned professional certifications in Full Stack Development and Programming Fundamentals and More certifications

EDUCATION

Bachelor of Science in Software Engineering

Haramaya University

2023 – Present

- Focus on full-stack development, algorithms, and software architecture
- Relevant coursework: Data Structures, Web Development, Database Management, Software Engineering

TECHNICAL SKILLS

Frontend Development

- React.js, Next.js, JavaScript, TypeScript
- HTML5, CSS3, Tailwind CSS, Bootstrap
- Responsive Design, UI/UX Design

Backend Development

- Node.js, Express.js
- MongoDB, MySQL, PHP
- RESTful APIs, Authentication

Tools & Technologies

- Git/GitHub, Version Control
- Vercel, Netlify ,Docker(Deployment)
- Figma (Design)
- Chart.js (Data Visualization)

FEATURED PROJECTS

E-Commerce Platform

Technologies: React.js, Node.js, MongoDB, Express.js

- Full-featured online shopping platform with cart management and payment integration
- Implemented admin dashboard for product and order management
- Built RESTful APIs for seamless frontend-backend communication

- GitHub:
github.com/Borifano02/E_commerce_website

Blog Website

Technologies: Next.js, TypeScript, React.js, CSS3

- Modern blog platform with clean UI and fully responsive design
- Implemented server-side rendering for optimal performance
- Integrated content management system for easy updates
- Live Demo: borifan-blog.vercel.app
- GitHub: github.com/Borifano02/blog

Crypto Tracker System

Technologies: HTML5, CSS3, JavaScript, Express.js, Node.js

- Real-time cryptocurrency tracker with CoinGecko API integration
- Interactive charts using Chart.js for price visualization
- Search and filter functionality for 1000+ cryptocurrencies
- Historical price data with customizable time ranges
- Live Demo: crypto-tracker-system.vercel.app
- GitHub: github.com/Borifano02/Crypto-tracker

Appointment Management System

Technologies: React.js, JSX, CSS3

- Comprehensive booking system with real-time availability
- User-friendly interface for scheduling and managing appointments
- Calendar integration for better time management.
- Live Demo : <https://appointment-management-system-flame.vercel.app/>
- GitHub: github.com/Borifano02/Appointment-Management-System.

CERTIFICATIONS

Become a Fullstack Developer from Educative

- Comprehensive training in MERN stack development
- Hands-on projects and real-world applications.
<https://www.educative.io/verify/certificate/Z4JLg2tXEox9kZMrOIXryllBJ1glhV>

Programming Fundamentals from Udacity

- Core programming concepts and best practices
- Problem-solving and algorithmic thinking.
- and more Certifications that gain Experiences and strong knowledge from it.
